Also much cheaper than buying at a proper bookstore. The pages are A4 sized much larger than standard tankobons. Briefly the plot here is not going to overtake win awards. It's secret services (British and Vatican) vs vampire and Nazis. And vampire Nazis. Yes there are a fair few recurring tropes. But It does look cool. The art here consists of dramatic and exaggerated poses. Swathes of shadow and darkness surrounding gothic imagery. There are pages that will just make you stop and stare. If that sounds fun to you then check it out. Definitely the best possible edition there will ever be. Large format print very thick paper and well bound. 1506715532 If your a fan this is a must have. Esse foi meu primeiro contato com esse mangá e gostei. E o Vaticano também tem sua agência equivalente. O principal agente da Hellsing é o vampiro Alucard. Que é extremamente violento e sem misericórdia. E por onde passar encontra desafetos. Tem muita violência e um ritmo bem acelerado. A arte é ótima e consegue passar bem a violência. 1506715532
