I finished this little book and then I read it again I am blown away I am fascinated with the soul of a magnification poet artist These letters are mesmerizing reading for a writer or for one who wants to be a writer There are 11 letters in the book 10 of them are written to Franz Xaver Kappus a Schwab German in Austrian Hungarian Empire between years 1903 and 1908 The other one is written to Belgium poet Emile Verhaeren from a factory worker a fictive person in 1922 These letters are not intended to be compiled and turned to a book during his lifetime Rilke died in Switzerland 1926 They were published after his death in 1929 yet it is his most read book Book is made up of five sections 1 Chronology 2 Introduction 3 Letters to a Young Poet 4 The Letter from The Young Worker 5 Afterword by the translator Charlie Louth Chronology is very nice One should and does come back to read it again to have a better grasp and digestion of Rilke's life I am in favor of placing chronologies always at the end Chronology is tastier when reader finishes author's work first and has some wonders about author's life in his head Reading it before feels cold not engaging Rainer Maria Rilke was born to German family in Praag Bohemian State of Austrian Hungarian Empire in 1875 He enters Military Lower school in 1886 then moves to Military Academy in 1890 He leaves the academy without finishing He starts studying trade and commerce and leaves again without completing He seems to be having a drifting life His father advises him to be civil servant at state to have settled job It is just wonderful fortune to literature world that he did not follow this advise He appears to love travelling; Paris Venice Tunisia Berlin Russia Switzerland It was a lovely surprise for me to find out that Rilke had also relation with Russian psychoanalyst Lou Andreas Salome Nietzsche fell in love with her but got rejected Freud was said to have romantic relation with her too Introduction written by author Lewis Hyde and it is a misfit to this book It is unclear and not an enjoyable reading and feels without substance Reader gets a relief reaching letters part Lewis Hyde should learn from Rilke Franz Xaver Kappus is eight years younger than Rilke and studies in the same Military Lower school He wants to

be a poet also and is having paradoxical feelings about his future One day while reading a book of Rilke a Professor of the school approaches him grab the book Professor recognises Rilke's name tells to Kappus that he also studied there This triggers Kappus to send Rilke his poems to get feedback Kappus thinks Rilke must have the similar paradoxical feelings between following a military carrier or becoming a poet It looks like Rilke loves and pays great attention to these letters I think it was for two reasons 1 Now someone is asking his advise who has the same paradoxical feelings about his future as he had by then So he has great sympathy for Kappus 2 This is also an opportunity to unleash his soul and experiences practices Letters are great work of literature where he opens up his soul shares his wisdom and practices Through out the letters he emphasizes patience one's own deepness solitude His dislike with the ordinary mundane cheap is obvious He writes about how a poet should find what he is looking for Letters are written in aphoristic style They reminded me Nietzsche but with a soul of a poet Reader feels his breath presence He is a fulfilled peaceful life enjoying artist Here is one of his lovely advise You are a young all still lies ahead of you and I should like to ask you as best I can dear Sir to be patient towards all that is unresolved in your heart and to try to love the questions themselves like locked rooms like books in a foreign tongue Do not now strive to uncover answers; they cannot be given you because you have not been able to live them And what matters is to live everything Live the questions now Perhaps then you will gradually without noticing it live your way into the answer one distant day in the future You immediately notice the difference of style between 10 letters to Kappus and The Letter From a Young Worker In this letter he questions challenges Christianity Is it enhancing the human life or not His language sounds modern logical and less tasty I think by choosing a factory worker he shows his side on this polemic production labor rationality modernity This was surprising for me In The Afterword section translator Charlie Louth has also very nice review of the letters Letters to a Young Poet (Penguin Classics) Good product delivered promptly Letters to a Young Poet (Penguin Classics) Read a couple of chapters bit tough going but I like it so will continue Not my normal reading but fancied a change Letters to a Young Poet (Penguin Classics) The content as others have said is well worth reading And I won't add to their already 'gleaming' comments in this review My surprise though was how slim this tome is Fiscally speaking whether the 'sixty two' pages of 'actual' content are worthy of the £8.99 asking price is another matter This waif like novella will take an hour of your time to finish Please be aware of this when purchasing You'd be far better off buying 'Ahead of All Parting' Modern Library edited by Stephen Mitchell if you wanted to initially delve into the existentially mystical Rilke Letters to a Young Poet (Penguin Classics) I bought and read this book after discussing Rilke with a Rilke fan and having to admit I'd never read anything by him I doubt this is particularly unusual which based on these letters is a shame She suggested reading this set of letters as a good place to start This edition contains what seems to me to be a slightly odd combination of actual letters from Rilke to another younger poet hence the title and a fictional piece by Rilke titled The Letter from a Young Worker I assume this is because both are very short and may not justify a book on their own If you write and you read nothing else by Rilke read the first letter but better still read them all Letters to a Young Poet (Penguin Classics).
