The Commanding Self booklet

The commanding self in Sufi terminology is that mixture of primitive and conditioned responses common to everyone which inhibits and distorts human progress and understanding. **The Commanding selfserve login** It is a "mixture of primitive emotionality and irrelevant associations" and it is something you really want to combat: "The Commanding Self though can be seen as a sort of parasite which first complements the personality then takes over certain parts of it and masquerades as the personality itself" This book is full of knowledge wisdom psychology sociology it warns of overactivity of emotions and of mechanicality it contains wonderful stories it talks of idealists as destroyers of good and faith as obsession and of HUMOUR as a NECESSITY. **The Commanding Self ebooks free** And who doesn't ? 'I can only think that I might resort to force or go to the police' said the pilgrim. **The Commanding selfvio** When the man and the cargo arrived outside the shop he pretended to be a stranger in the town and asked the merchant if he would agree to look after the ten chests while he went abroad. **Book The Commanding self help** He went up to the merchant and the disguised dervish and said: 'I have come for my chest of valuables may I have it now?' Fearing that he would not be trusted by the owner of the exciting chests of 'valuables' if there was any argument the merchant handed over the pilgrim's property full of smiles. **Book The Commanding self service** It is related that: The Yogi who charged for his lessons put in \$5; The Monk who had his monastery's charity-box to rely on put in \$10; The Sufi who did not believe in waste took the \$15 out and put in a cheque for \$100; The Zen master was the undertaker. **The Commanding Self pdfiller** The Commanding Self of the title is the part of us we so often take to be our whole selves but is in reality a jumble of reactions opinions and and assumptions about ourselves and the world we inhabit. **Spirituality The Commanding self care** Reflections: Idries Shah Idries Shah's The Commanding Self helped me recognize that what I think is my "normal" everyday self is actually a mix of primitive & conditioned reactions which inhibit and distort my understanding. **Book The Commanding self** Shocking fresh often funny the book points to a middle way where this "beast" is allowed to exercise its useful functions & meet its needs while keeping the door open for other capacities or selves to emerge and grow. **Kindle The Commanding self employed** The Commanding Self Книги Идрис Шаха - это для меня такой привет из 90-х :) когда на книжных развалах появились первые книжечки (на дешевой

газетной бумаге) по эзотерике. **Spirituality The Commanding self care** :) Если сегодня я захочу приличных знаний о суфизме то я возьму почитать Ибн Араби аль-Газали Руми ну или на худой конец академика Бертельса :). **Book The Commanding self by john** Но уж никак не книги Идрис Шаха! Почему? По очень простой причине: любая духовная традиция существует неотрывно от своих культурных (национальных исторических политических и т. **Kindle The Commanding self pdf** Именно поэтому есть очень большая разница между духовной традицией у себя дома и между этой же самой традицией искривляться :((. **Spirituality The Commanding self pdf** Главный минус заключается пожалуй в том что чужая духовная традиция всегда осваивается избирательно; что чужая культура берёт из новой традиции только то что ей проще всего взять. **Book The Commanding self storage** Именно поэтому любой гуру выступающий в роли переносчика духовной традиции на другую культурную почву оказывается о очень непростой маргинальной роли. **EPub The Commanding selfie** Если гуру будет на 100% верен своей традиции то в новой социальной среде он рискует остаться полностью не понятым и не востребованным. **Philosophy The Commanding self esteem** Если гуру на 100% ориентируется на запросы новой социальной среды то тем самым он предаёт свою духовную традицию и искажает её в угоду потребителям. **EPub The Commanding self employed** Почему я пишу гуруизм в кавычках? Это не Восток пришёл на Запад это Запад (ещё со времен госпожи Блаватской) пошёл на Восток в поисках чудесного :)). **Spirituality The Commanding self care** Учителя духовных традиций действующие у себя дома и гуру которые презентовали духовные традиции любопытствующим европейцам (а потом и сами европейцы подражающие гуру; а потом и восточные гуру которые отправились преподавать чудесное на Запад) - это две большие разницы :). **PDF The Commanding self care** В моём понимании Идрис Шах - это такой классический импортированный гуру который приехал обучать чудесному наивных европейцев :). **The Commanding selfvio** Но если сравнивать то что пишут гуру вроде Идрис Шаха с тем что пишут более авторитетные люди внутри традиции (например упомянутые выше Ибн Араби Аль-Газали и проч. **The Commanding Self publishing** Вот и книга Идрис Шаха не подвела! Например в ней есть такие признаки гуруизма: 1) Очень много разрушительной критики по поводу не-истинных Учителей (в т. **Book The Commanding self storage** Исключительная монополия на истину - один из главных симптомов гуруизма! 2) Сказочное количество воды: - У вас есть особые методы саморазвития?- О да у нас есть лучшие методы саморазвития! И это очень секретные методы которые могут знать только самые посвящённые из посвящённых! (. **The Commanding selftraits** гуру не никогда отвечают прямо на поставленные им вопросы! В подавляющем большинстве случаев реакция ученика: Не понял!. **The Commanding selfserve login** На что гуру радостно заявляет: Потом когда наступит подходящее время ты всё поймёшь! Главное не прекращай сотрудничество со мной!. **Book The Commanding self employed** чтобы деньги не пролетали мимо кассы каждый уважающий себя гуру должен уметь так отвечать на поставленные вопросы чтобы ученик чувствовал себя всё более растерянным и чтобы у него возникало ещё больше вопросов. **The Commanding selfvio** Сильная сторона книги - замечательные суфийские притчи которые действительно могут помочь поумерить влияние нашего Эго (командующего Я) и взглянуть на себя критично со стороны. **The Commanding selfweb** The Commanding Self This book by Afghan author Idries Shah addresses barriers to learning and effective action -- barriers often called 'the Commanding Self' by the Middle Eastern and Central Asian sages known as the Sufis. **Philosophy The Commanding self pdf** The text exhibits the very subtle and powerful psychology (and sociology) of the Sufis and their manifold efforts to help free the ordinary mind from the mental warping of the Commanding Self. **The Commanding selfserve login** The book using a variety of approaches gives insight into the 'commanding self' how it distorts understanding and steps one can take to become less subject to it

(while allowing the expression of healthy psychological impulses). **EPub The Commanding self help** For instance there is 'Etiquette' containing an account of how the queen of Spain who'd slipped from her horse with her foot still caught in the stirrup couldn't be rescued by any of the Court grandees present as none had the authority to touch her. **Book The Commanding self help** Then there is 'Levitation' the story of the astronomer who announced on the BBC that Pluto was to produce an effect detectable on Earth -- at a certain time if people jumped into the air they should feel a floating sensation. **Book The Commanding self by john** 'There is also the tale of 'The Valiant Trader-Knight' a humorous story in which a man goes through several experiences without perceiving some of their essential elements -- as a result he develops a completely wrong inflated idea of his capacities. **Spirituality The Commanding selfless** ' When the ship is at sea the first holy man observes 'the daughter of the King of India sewing at the window of her palace! The second holy man shouted: And I [italicized] can hear that she has just dropped her needle and it has struck the ground below her! There are numerous recommendations on how to orient toward learning and Sufi study such as 'Intolerable Mishmash?' and 'Escape. **Book The Commanding self of god** ' There is also important material on the enneagon ancient monuments and planetary symbols -- but this material does not invite us into a spell of historical fascination; rather these passages appear to be there to give us just enough information on these subjects to limit the undue growth of the Commanding Self. **The Commanding selfvio** Each tale anecdote or passage seems to include a good deal of teaching in a very small compass; and to draw attention to this or that passage in a review seems to distort or overemphasize it. **Book The Commanding self employed**)Shah's book reveals a great deal of subtle and powerful psychology and anthropology -- for instance in the sections on 'Idealism' on 'Loading and Unloading' (this section alone is more than worth the price of admission given its potential for clearing up many misunderstandings in communication) on 'Displacement Activity' on assumptions and attention-seeking (in the section 'Preconditions. **Philosophy The Commanding self esteem** ') on the barriers to higher perception illustrated in the funny and memorable 'Eight Analogies' and on the importance of digesting what one is taught not just tasting it in the section 'Undigested. **Book The Commanding self storage** ' Surely by the way this must be one of the functions of anthropology: to apply it to ourselves so that we can see more clearly what motivates us and how we might overcome pressures that limit us. **Book The Commanding self pdf** A wise man once said: In the next life you will not be asked 'Why did you not behave like such-and-such a person?' You will be asked: 'Why did you not behave like your real self?' If you know who and what you are you can start to be that person instead of a copy of the ideas the behaviour or the image of someone else or some collection of people. **Book The Commanding self pdf** In the section 'Conditioning' the author highlights a vital approach toward learning: It is only when the desire for knowledge and understanding becomes as effective as the craving for emotional stimulus that the individual becomes accessible to change to knowledge to more than a very little understanding. **The Commanding Self kindle app** Early on Shah has already helped us orient constructively toward the Commanding Self and its problems: The answer? Time and service rather than wanting to take a place on the totem-pole. **Spirituality The Commanding self pdf** It is for this reason that Sufi teachers divert vanity from the spiritual area by encouraging their disciples to channel the Commanding Self's activities to any worthy worldly ambition: while continuing to study the Sufi Way in a modest and non-self-promoting manner. **The Commanding Self book pdf** The Commanding Self Idris Shah (Persian: ادریس شاه) also known as Idris Shah né Sayed Idries el Hashimi (Arabic: سيد إدريس هاشمي) was an author and teacher in the Sufi tradition who wrote over three dozen critically acclaimed books on topics ranging from psychology and spirituality to travelogues and culture studies. **Spirituality The Commanding self pdf** In 1965 Shah founded the Institute for Cultural Research a London based edu Idris Shah

The Commanding Self booklet Expressing amusement and amazement at the sycophantic manner of Shah's interlocutors in a BBC radio interview Elwell Sutton concluded that some Western intellectuals were so desperate to find answers to the questions that baffle them that confronted with wisdom from 'the mysterious East' they abandon their critical faculties and submit to brainwashing of the crudest kind,
