Only have it two stars because I couldn't go any further than the second story:

Many books and stories have been written about foot fetish, However SUCK LICK PLAY is specifically written for men who worship BBW Erotica and the women who demand it. This compilation is a mix of both fiction fantasy and truth; you decide which one fits which story, This compilation is destined to make BBW's wet and give maximum wood to the fellas: This compilation is truly for the seasoned sexual freak or the naughty inquisitive freak to be! If you are Vanilla you won't be when you finish reading this book, I didn't count them but out of about a total of 10 stories I can say I really liked one. The remaining of the stories is a rehash of the same premise; somehow he meets a 30ish year old dark skinned BBW. He tells her about his foot fetish and she happens to be into it too: I think these snippets originated of blog posts or they seemed to, I say this because the author included links of pictures and videos. Links with endless names of footwear with the brand color and size of them, It should have been edited out and replaced by written descriptions: When you say a story is about a BBW and the only time you hear about her being corpulent is in the first paragraph is disappointing, The narrative should consistently remind you of such an important fact through choice of words and stylistic devices: Steer away unless you are a foot fanatic and feel you need to read everything related to this topic. The stories were super hot and there were even videos featuring pretty feet and peds! Author redpedsole really knows his stuff: Rating was based on realizing that foot fetishes are not my thing NOT the authors writing, For those of you who have a foot fetish I am sure you will enjoy, SUCK LICK PLAY - A Compilation of Short BBW Erotica Foot Fetish Stories: Domination Diaries for the BBMs Who Worships Them!

. A cigar is consumed. They end up playing a little bit. End of story. Shuffle a bit. Repeat. It annoyingly burdens the narrative. The descriptions are lacking of details. Dialogues were boring and filled of clichés. There are better foot fetish stories out there. Suck Lick Play was an absolute treat
