

Blood Tree: Part One By Scarlett Dawn Initial Reaction: Blood Tree - Part One by Scarlett Dawn is the first in a new adult paranormal romance series about a completely different world!! Kenna Julius thought her mother was overbearing and crazy until one night her mother sends her to follow the path of white roses and music to safety. English As if that transition between childhood and being a teen isn't bad enough what with a sometimes quirky sometimes overpowering mother finding a teen crush Kenna's life as she knows it firmly planted in reality is about to turn upside down. That is exactly what Kenna's mother told her to do crazy as it sounded she did it and walked right into a world where the inhabitants are magical beings even the one who claims Kenna is his...So now what?Here we go into another intriguing fantasy series from Scarlett Dawn! The battle between dark and light fact and fantasy with one girl stuck in the middle. Do you like to feel you have been transported into another world? Do you want to believe in the unbelievable to think that the magic of fairy tales can come true?? In Scarlett Dawn's world everything else fades away as each scene unfolds the intrigue builds and the light and dark sides are neither all good or all bad. Dawn can write with style imagination and non-stop action as she draws us in to meet great characters see beautifully described scenes and for just a while forget that we must return to reality soon! Her writing is as magical as the tales she tells kind of like a hot fudge sundae without the calories!! Delicious delightful and gone far too soon!I received an ARC edition from Scarlett Dawn in exchange for my honest review. Series: Blood Tree - Book 1Publication Date: August 14 2015Publisher: Scarlett DawnISBN-13: 2940152322637Genre: Fantasy | N/APrint Length: 83 pagesAvailable from: Amazon | Barnes & NobleFor Reviews & More: <http://tometender>. Light Fae Dark Fae and an entirely new world to explore!My Rating: 5 StarsWritten by: Scarlett DawnPrint Length: 83 pagesPublication Date: August 14 2015Genre: Urban FantasyAmazon | Barnes & NobleFor Reviews and More Check out: <http://tometender>. Or does Kenna actually belong to another?Someone much more...dark? \*This is a 20000 word novella\* Blood Tree: Part One New York Times bestselling author and award winner Scarlett Dawn is the mastermind behind the Forever Ever fantasy series the Origin paranormal dystopian stories the Vampire Crown paranormal romance thrillers the Mark science fantasy saga and the Lion Security contemporary romance series. Newsletter: {site\_link} New York Times bestselling author and award winner Scarlett Dawn is the mastermind behind the Forever Ever fantasy series the Origin paranormal dystopian stories the Vampire Crown paranormal romance thrillers the Mark science fantasy saga and the Lion Security contemporary romance series. She loves she hates and she follows all the rules laid out by her mom and the light fae with no question but maybe a bit of impatience ;)Julius is the king/creator of all the light far and happens to be the main love interest. I want to know what all she learned please :DOverall I'm a big fan of Scarlett Dawn and so I enjoyed this book! It's a quick read one that you will not want to sit down and if you need something (as I did) to get you out of a reading slump this is it. There's some amazing world building which is essential for fantasy literature and you really don't want to miss this world Dawn has created! Just keep in mind that even though the character starts at 13 she ages quickly to 20 and this is a new adult book (sorry no kiddos under 18 please). If you enjoy fantasy paranormal romance or are just looking for a quick read this is the book you are looking for! English I've been a bit conflicted about how to grade this one although I am jumping in glee that we haven't been left with an agonising cliffhanger so maybe a 3:Rating: 3Review: \*\*\*All individual installments have been put together in one book called Blood Tree Silver Edition: Kenna learns that she is an fae but what her mother hid her from the fae world till she knew if Kenna is a dark fae or a light fae: Kenna has to wait till her twentieth birthday when her blood tree shows if she is dark or light: Maybe if it was longer and a few details were tied up I would have liked this much better. Now I will read the other three installments due to the fact the edition I have has both books in it, English Not much to say.

And demands her fries covered in melted cheese. Newsletter: {site\_link} {site\_link} I received an eARC of this book from the author in exchange for an honest review: This does not affect my opinion of the book or the content of this review: The crazy part is there is music and there is a path straight to another world. I like Kenna.

Really except that I was really disappointed in this story, I'm a fan of Scarlett Dawn but this story; not so much, Scarlett Dawn has a new NA fantasy Blood Tree and to get there just follow the roses to a new world filled with light and dark fae. seriously? So now you wrote a Fae Duet and I'm so addicted to this new realm you've sucked me into I don't know what to do with my self! This is the story of Kenna. When trouble comes knocking on their door late one night Juliet sends Kenna away. to the Light Realm where she's never been and knows very little about, Now only time will tell if she can wait until her bloodtree which is years away: \*\*5 The Power Struggle Begins Stars\*\* English When someone is banging on her door Kenna is sent down a path that will change her life forever. Everything she knew about herself and her life with her mother is about to drastically change. Kenna discovers the world of the Fae and that she is one of them: Now that she knows they exist she visits the world often but won't truly be one of them until her 18th birthday: It all comes down to Light or Dark Fae and which world Kenna must abide, I'm a fae junky to begin with but this offers such a unique and original tale I devoured the story and still wanted more: Thankfully its just the beginning because I can't wait to see what comes next: Dawn an imagination explosion put into a marvelous story for us to enjoy. com English The individual installments are no longer in publication: Please see the boxset Blood Tree: Silver Edition which includes a bonus story at this link: <http://bit>, The two halves make a whole...Or do they constantly battle for dominance? Kenna Julius is your average teenage girl: She has a bossy mom a new boyfriend in school and she never dreams of enchanted lands or fairytale castles. One fender bender sends Kenna traipsing through the woods and following her mom's crazy directions. But when she falls into another realm where men play flutes under the full moon and magical powers crackle the air her perception of fantasy becomes her reality, The hot guy she meets doesn't help matters either when he claims she's his: She lives in the Midwest adores her music loud and demands her fries covered in melted cheese: She lives in the Midwest adores her music loud even if she is a bit misguided: She knows who she is and what she believes and no one is going to tell her differently. Not much is really known about him other than what is shown from Kenna's brief/intense encounters with him, If I'm honest I suspect there is more to him and I hope to see that in the coming book! So I really liked this book I wouldn't say I loved it though: I felt like the plot had a ton of potential but it was rushed, Kenna's entire story is placed into just over 80 pages roughly 20000 words: It starts when she is 13 and spans until her 20th birthday when she will face her blood tree ceremony: The whole book is really centered around this ceremony and the events that lead to it. Will Kenna be a light or a dark fae? Every time I got hooked into the story it would skip ahead a few years. Like when she was 13 and had just entered the fae kingdom and is learning all about it the next chapter skips to when she is 16 and already knows everything: It was pretty obvious where this one was going even though I wasn't totally expecting at least the entirety, Still looking forward to the next installment I am a Scarlett Dawn fan. English I received this ebook from the author on release day in exchange for an honest review and then bought it to support her: But what kind? She can enter the light elves' realm but she has the dark elves' black hair. She just need to not have sex before she's twenty to not kill anyone even accidentally and to not enter through a dark wooden door, The ending is a bit weak and this ruined a bit the novella but as I have said before endings are not this author's stronger suit[1]

My edition: KindleSeries: Blood Tree #1. It is on Kindle Unlimited.\*\*\*The first installment follows Kenna Julius.This was alright. I wasn't fully impressed by the story. The story seemed to fast past for me. Like it was rushed.the world of the light fae. And so Kenna's normal-ish life becomes crazy.1.5 stars.Ms.blogspot.com English I mean.Kenna is a darkhaired daughter of Juliet a Light Elf.It's a full moon the flutes are playing. The music is enchanting. But one tune stands out among the crowd.and when Kenna finds it so she also finds her mate.Problem is she's too young. And he's.not who you'd expect.and if she can keep out of trouble until then.She is the darkhaired daughter of a light elf after all.I loved Blood Tree: Part 1.Blood Tree is another obvious must read by Ms.blogspot.ly/1KQKbQh Where there is dark there is light. She lives in the real world. Or so she thought. Hence the reason I give it four instead of five stars. Ummm.5.It's a nice story. Kenna discovered at thirteen that she is an Elv. Easy peasy. Not.My vote: 3 stars English I enjoyed Kenna's story very much. But I wanted to know more about them. It was just too short. English DNF at page 115. English.
