It kept me guessing. This was a fantastic book. The beginning is pretty bleak. Mal is on the run and starving. My ambition is to publish 100 books. He wants her and she wants him. They fight. They have sex. They fight. Something bad happens. The bad thing is overcome and they get married. The character depth is really impressive though. Mal is an especially interesting character for me. I really enjoyed watching him evolve. I also really enjoyed the side characters. They had a lot of depth too
