

Club Sex-Book Two By Tatumn Dixon

Another most excellent steaming offering from Tatumn Dixon I should not have been surprised by this well-written short piece about a smart and very self aware woman's experiences in the Club. Unable to find a man who can keep up with her insatiable desire for sex Carina explores a lifestyle where sexually adventurous couples invite her to join them in no-strings-attached threesomes...and our girl is down for the sinful cause. Having found a safe space to embrace her sexuality Carina plunges into a world of BDSM threesomes and more behind the closed doors of Club Sex where she's lustfully known as—a Unicorn. Saucy Sneak Peek: Shackled and Flogged Cadillac Cowgirl Pleasure and Pain MFM Throw Down! Club Sex-Book Two Tatumn is an best selling author obsessed with penning super steamy binge sized reads which focus on sensual confident women embracing their sexuality during their late forties: Tatumn's skill at setting the personality of her narrator and main character in a reader's mind is amazing: It's all but impossible to visit a real life club without spending some time looking for her characters, Club stories from Tatumn have been consistently high quality and this may prove to be the best: But I can't avoid hoping that she will have even more enjoyable short reads coming in the future. Romance.

Ebooks A well written story The writing of this story is pretty good, I think that this story is in Kindle Unlimited as there is 1. Romance Ebooks Book Two takes a different direction than book one leading me to believe that while the sex club itself is present in each story the characters will change: In this case it's a single bisexual woman who enjoys all the freedoms the club has to offer although in this case there's still some romance and we end up with a HEA. The sex is still hot and overall this is right up there with book one. Romance Ebooks Starts as a ode to (mostly sexual) freedom and independence and finishes with relative conservative relationship (admittedly with some perks and benefits). Romance Ebooks Carina Galanis is single and ready to erotically mingle. I hope that this is not the case. Some of the sex is hot. 5 full lines between sentences and 2.5 between paragraphs. Click-bait. Interesting. Good Naughty Sex Packed Fun #backsideof40.
