

The Ghost Mine (Tech Ghost #1) By Ben Wolf **The Ghost Mine book** Where the story lost me were the last 50 or so pages where it went from good old fashioned horror (fair warning there is quite a bit of gore an horror to the story) to silly; the most absurd being: 1)Ghost Mark wanting to join Etya to take over not only the company but other companies2)Ghost Mark and Carl being half-brothers with Carl killing Mark for to keep control of the company3)Ghost Mark &n Etya willing to kill hundreds to take revenge on Carl4)Stecker being Ety's father and willing to murder anyone in cold blood to get back in her good gracesI would have rated the book higher if not for the last act . **What does it mean when someone ghosts** You'll be able to identify the personalities morals desires and end game of relatable characters Fantasy Science Fiction Horror

I picked this up while at GenCon because I enjoy sci-fi. **Ghost mine airer** I found the main character's arch enemy a little unbelievable because who just hates someone on first sight? But that relationship redeemed itself over the course of the book, **The ghost minec crypton** The action scenes were well described and the monsters were horrifying! I'll be picking up the rest of this series Fantasy.

Justin can no longer turn a blind eye. But the mine's brass don't want him digging for answers.and it wants blood. The characters' purpose was to move the plot along . . though a few were clichéd enough to induce eye-rolling. . it ventured too much into the absurd . Fantasy.
