

Profile of a Criminal Mind By Brian Innes **Profile of a Criminal mindjet mindmanager** First of all there were sentences following one another that just did not make sense - just missing information I guess? And also I feel like the writer is keeping the big secrets to himself. **Profile of a Criminal mindjammer** Like I guess the German shepherd information came from a dog hair found on one of the victims but why does the book not explain this? I bought it for the big secrets and this was a bit disappointing. **Profile of a Criminal mindjammer** 0762104074
