

Failure to Learn: The BP Texas City Refinery Disaster By Andrew Hopkins **EBook Failure to learn language** English Not only a great report on the underlying systemic causes of the explosion that killed 15 and injured more than 170 Hopkins uses the backdrop of leadership gaps that are often present in companies but also very difficult to diagnose or admit to. **Failure to Learn epub.pub** English In Failure to Learn: The BP Texas City Refinery Disaster respected OHS expert Professor Andrew Hopkins discusses the causes of a major explosion at the Texas City Oil Refinery on March 23 2005 that killed 15 workers and injured more than 170 others. **Failure to Learn kindle reader** Professor Hopkins poses questions such as: Why was the number of victims so large? Who was blamed for the explosion? What were the real causes? Had lessons been learnt from the earlier incident at Longford? Has anything changed as a result of the Texas City accident? The foreword for the book was written by Carolyn Merritt chair of the CSB at the time of the accident and subsequent inquiry.
