. Good action sequences. 175 Pages. They went through a lot to be together. Both unsure of their feelings they found their way together. Now tgey are bound in purpose and in love. Interesting setup to a new series. This is the first book in the Dragons of Preor. I can not wait to read . This is for adult's only due to the sexual content. The story contains action suspense and hot romantic scenes. The characters are easy to identify with. I highly recommend this book
